Area view

Additional views

Impact

- It is currently the largest development project in Crete
- Networks of general interest,
- roads,
- sewerage network,
- biological treatment and
- public spaces are being created

During construction

Connection

- Connection with old business park in Souda
- Old road carved by the Venetians
- Closest connection to the city of Chania

Business in the Park

- Expected to be ready at the end of 2018
- New Business are invited to establish there
- Special relocation program for craftsmen who want it
- This move is a response to the large gap in spatial planning in our prefecture, especially in the manufacturing sector
- It re-invites, in a positive way, the launching of spatial planning
- we want to accommodate modern, dynamic enterprises that will create new production models, new products
- a positive contribution and sustainability
